PROFESSIONAL SUMMARY

Production and Operations professional with 12 years of experience in ceramic manufacturing, specializing in production planning, operational coordination, ERP systems, and inventory control. Skilled in monitoring production performance, coordinating teams, and supporting supervisors to achieve daily production targets and operational efficiency. Experienced in ERP reporting, production scheduling, and cross-functional coordination between production, stores, and sales departments to ensure timely order fulfillment and meet customer delivery expectations. Proven ability to analyze operational data and support management decisions to optimize productivity and streamline workflows.

Recently returned to Sri Lanka after a successful 12-year career in the UAE, seeking a senior Production Planning or Operations role in a dynamic local manufacturing environment.

KEY COMPETENCIES

- Production Planning & Scheduling
- MIS Reporting & Data Analysis
- ERP Systems Management
- Inventory Control & Stock Reconciliation
- Operations Coordination & Workflow Management
- Documentation & Record Management
- Microsoft Excel & Data Analysis
- IT & ERP User Support
- Team Supervision & Workforce Monitoring
- Process Improvement & Efficiency Optimization
- Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Production Planning & System Operation Executive

General Ceramics Co. Sharjah J.S.C | UAE

November 2014 – May 2026

- Prepared and analyzed daily, weekly, and monthly MIS reports on production performance, inventory levels, manpower utilization, and operational KPIs, supporting management in data-driven decision-making.
- Managed and maintained accurate production and inventory data across FACTS ERP (current), xAct ERP, and Infos ERP, while supporting payroll and workforce management using Matrix ERP.
- Supported production planning and scheduling to ensure efficient workflow, optimal resource utilization, and timely order completion.
- Monitored daily production output, identified operational deviations, and coordinated with supervisors to implement corrective actions and maintain production targets.
- Reduced inventory discrepancies by implementing a structured stock reconciliation and variance analysis process, preventing material shortages and minimizing production downtime.
- Managed workforce records including attendance, overtime, and production incentive calculations, ensuring accurate reporting for management review and payroll processing purposes.
- Coordinated closely with production, stores, and sales departments to ensure material availability and timely order delivery to meet customer expectations.
- Provided ERP and IT system support by troubleshooting user issues and assisting teams in maintaining smooth operational processes.
- Analyzed operational and workforce data to identify trends and recommend process improvements aimed at enhancing productivity and operational efficiency.

Assistant System Administrator

Virtual System Solutions (Pvt) Ltd | Sri Lanka

October 2011 – September 2014

- Provided ERP end-user support and training, ensuring smooth system usage and issue resolution.
 - Assisted in server setup, database configuration, and reporting servers.
 - Supported hardware, software, and network troubleshooting.
 - Monitored system performance during software development to ensure quality and reliability.
 - Managed CCTV system installation and maintenance for secure operations.
-

PROJECTS

FACTS ERP – Production System Implementation

General Ceramics Co. Sharjah J.S.C

May 2025 – May 2026

- Acted as the primary coordinator between production/operations teams and FACTS ERP programmers for the implementation of a new production system.
 - Gathered and documented production requirements to ensure accurate system configuration and workflow alignment.
 - Assisted in process mapping, master data preparation, data validation, and system testing for production transactions.
 - Supported user acceptance testing, issue tracking, end-user support, training, and provided implementation progress reports to management.
-

EDUCATION

- Diploma in Information & Communication Technology – IMBS Green Campus - Sri Lanka (Currently Enrolled)
 - Passed G.C.E. Advanced Level & Ordinary Level Examination (2010 / 2006) - Walisinghe Harischandra College - Anuradhapura, Sri Lanka
-
